So you can see the future?

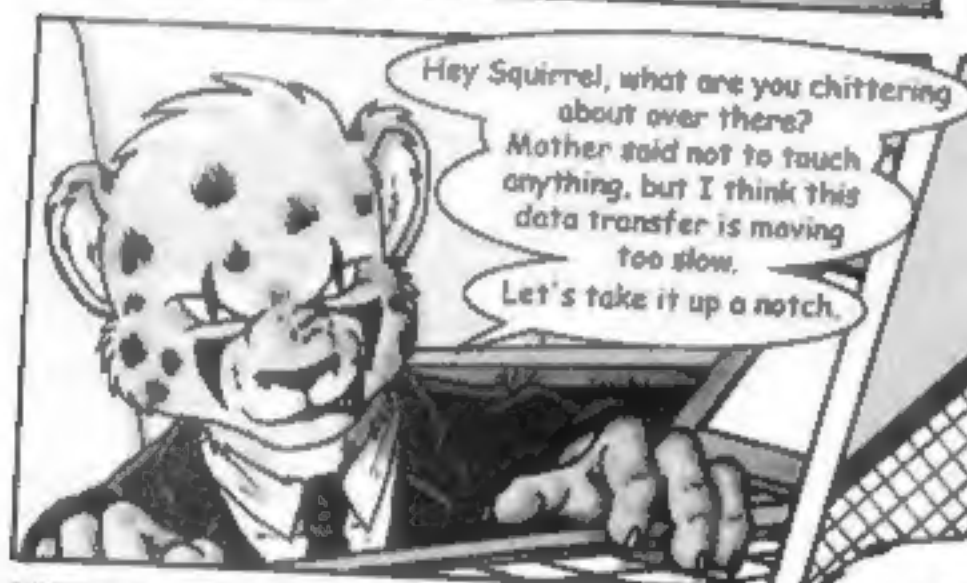

Sort of. I don't know how, but I get flashes sometimes. These maniacs can't be allowed to copy that.

I'll get you out of here!

GASP! I see creatures dying and buildings burning! Bombs. Four of them. The whole city of Yukoutoki will be destroyed in four hours!

What? Rokki? Is this one of your premonitions?

Hey Squirrel, what are you chittering about over there? Mother said not to touch anything, but I think this data transfer is moving too slow. Let's take it up a notch.

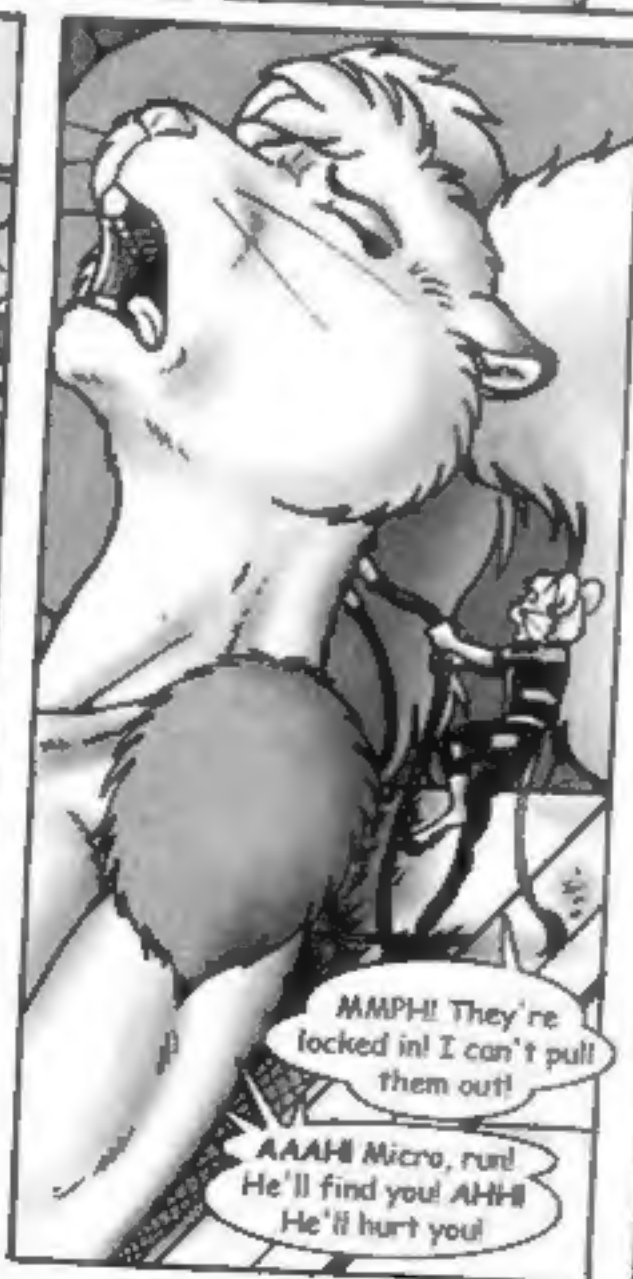

Micro, you must hide! He'll find you and... **AAARGH!**

Rokki? Data jump-jacks inserting into the back of her neck!

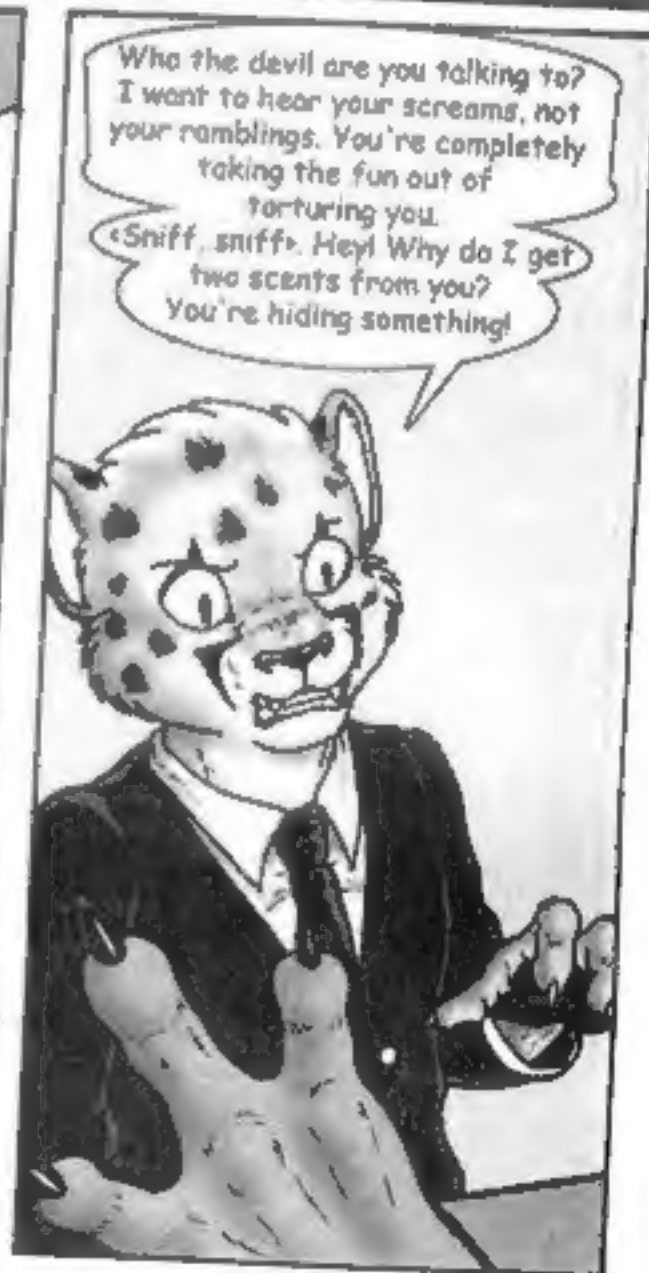

Yeah, that's more like it! The transfer is fifty-percent complete.

Sure, you may not survive the increased download speed, but who cares? Mother won't need you anymore once we have the data anyway and we can use your body for spare parts.

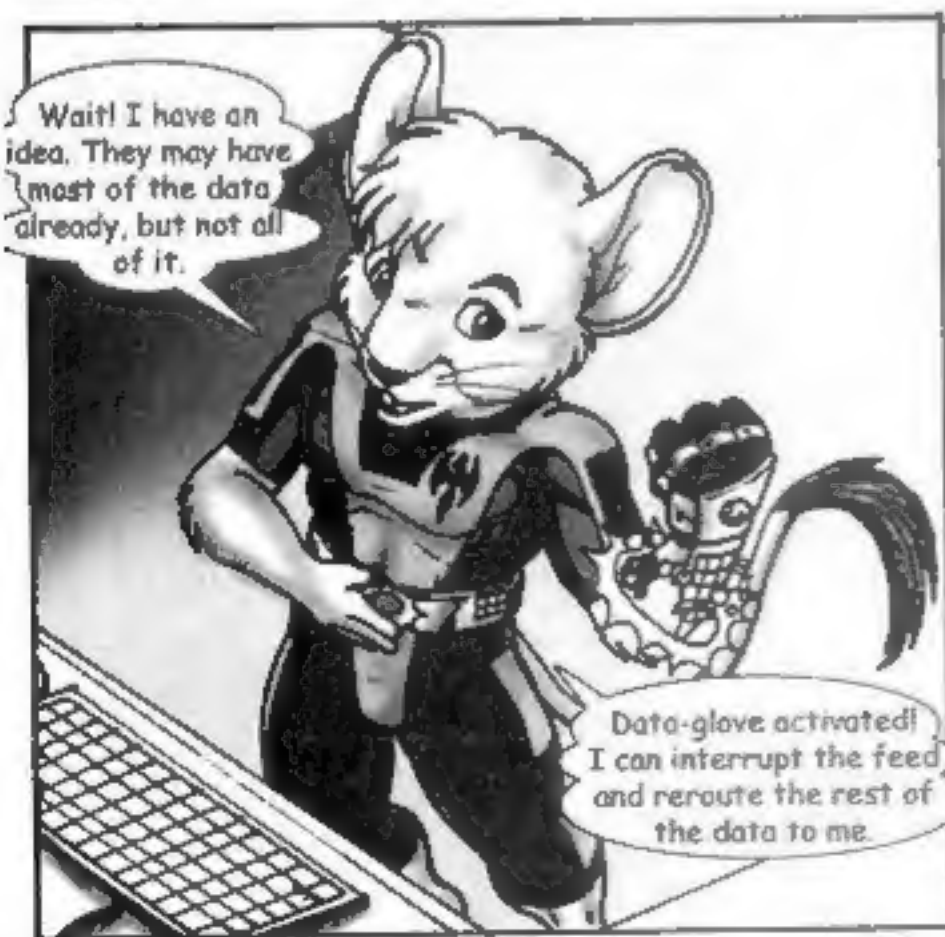

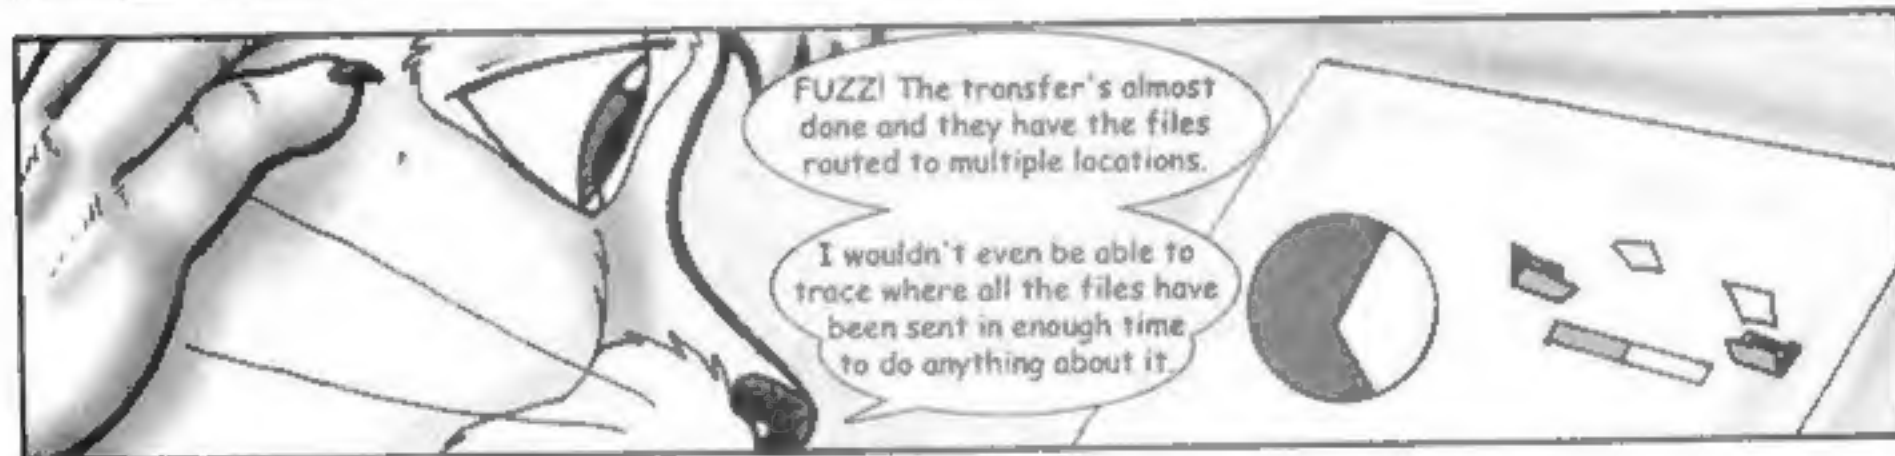

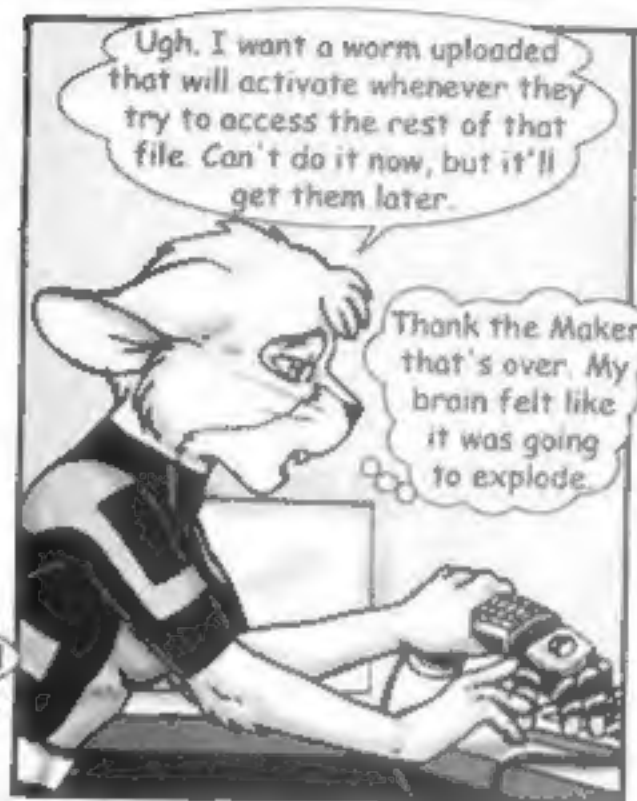

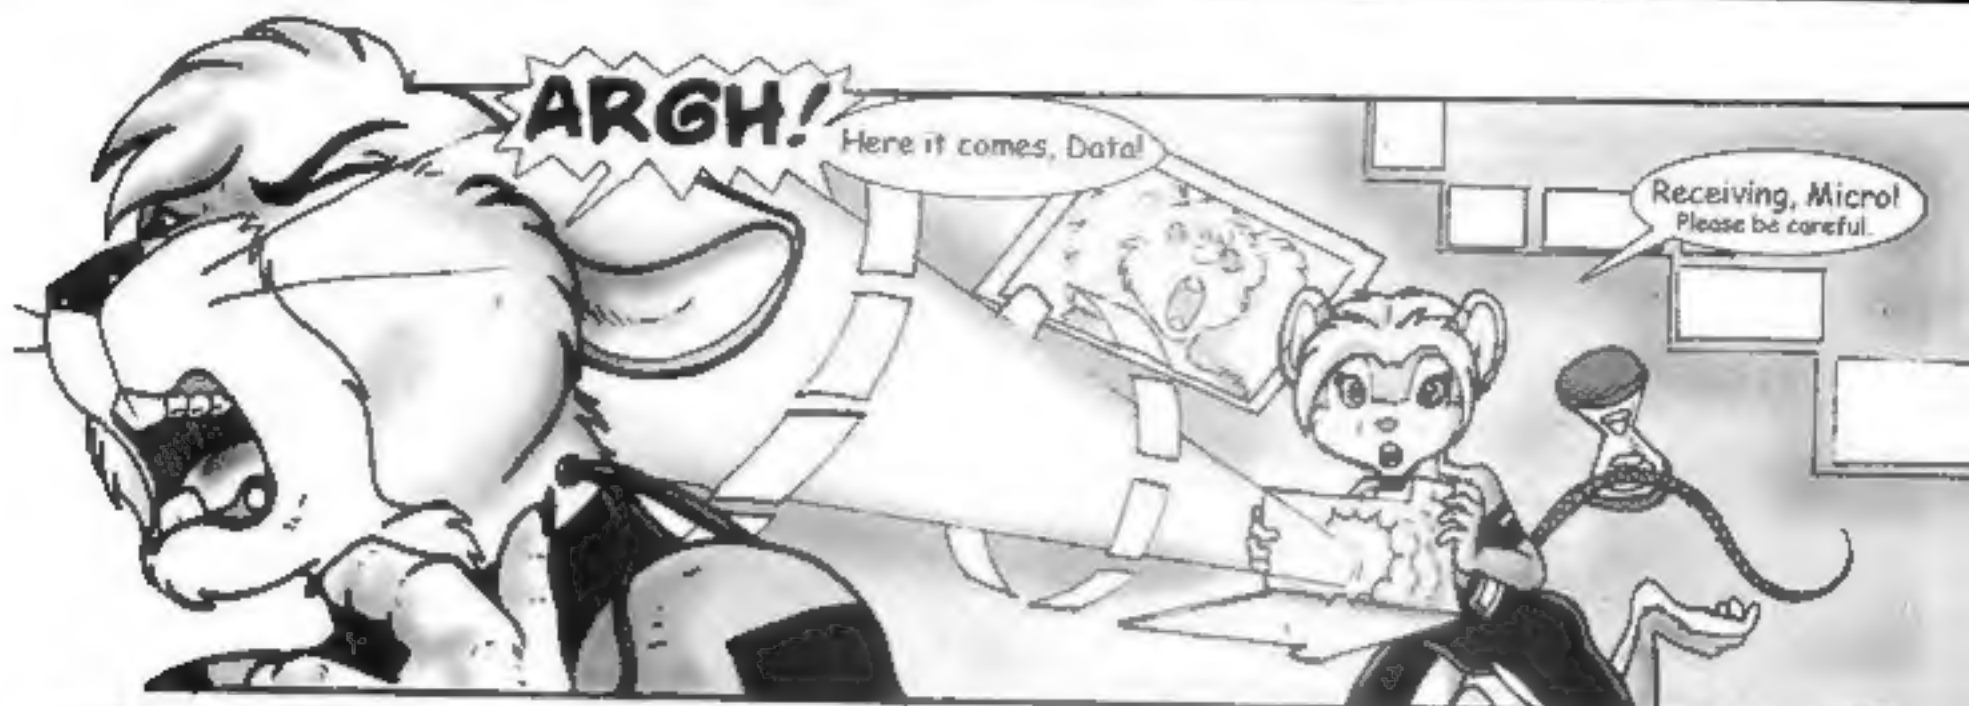

MMPH! They're locked in! I can't pull them out!

AAAH! Micro, run! He'll find you! **AHH!** He'll hurt you!

Who the devil are you talking to? I want to hear your screams, not your ramblings. You're completely taking the fun out of torturing you. *(Sniff, sniff)* Hey! Why do I get two scents from you? You're hiding something!

I will not let you ruin twenty years of research and planning! Not now when I'm finally so close.

Now get your tail back on that table!

Time is running out and I will not fail my mission before they..WHAT?!

You are right soft one. You're time is up.

Is that not right, Akera, my brother?

Indeed, Akera, my sister.

First, you go back on our agreement to gain access to the Andorazon technology by subterfuge rather than by force.

Then you destroy my father's science building, Napaj's leader in biocybernetic research.

Finally, you ignore my inquiry and insult me. With contempt you called me a "beast".

Takemitsu!

That's because I have nothing but contempt for beasts who presume too much about their status, you pompous male!

You're playing a dangerous game, Panda. One you will lose!

Brave last words. I will remember them as I'm slitting your throat.

M. Micro! What are we going to do? I'm I'm so frightened I can't move. I've never been afraid like this before!

It's because your mind is coping with not having the data slow down your emotional responses. But don't worry, I have a plan. Data, convert power to output.

Execute electro-static pulse wave!

Oooh. Micro you're so smart and brave. That's so attractive in a male. I'm SO appreciative. Mmmm.

Uh, Data has done a security check of the facility and says our friends are also being held here.

Ah hmn. I..think we oughta get going and find them. Oh gosh.

Thank goodness my

What happened?

Ambushed by
a Beta Hunter but worry
about that later. I can't
hold this up all day

It's been about ten minutes since the flying vixen took a nose dive into the ruins of Sei Ryu Labs

I stand here with her companion

Sachi who arrived here with her Ms Sachi, can you shed some light on what's going on for our viewers?

Sachi

I ain't got no idea what's going on. I should be at work

I'm Marika Churo of NNN. Can I have a statement from you about your knowledge of the recent acts of terrorism? Are you responsible?

No way! We're trying to help!

We're trying to prevent the extinction of this planet. But now step aside

Goodness! Is that guy trying to suppress the press?

No no! What he meant was we're just trying to help solve this crime but it might not be safe for you here

You know what's happened here?

We're getting a pretty good idea

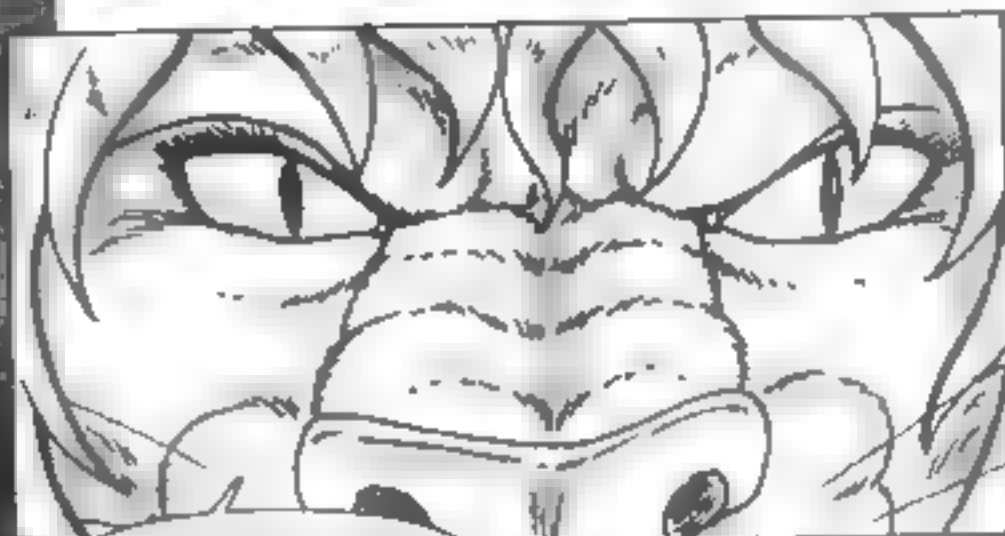

You all are the oddest looking group of creatures I've ever seen. Do you have a name and what did he mean by extinction?

What the?

**CREATURES OF NAPAN
HEAR ME!**

Look Look She's coming out of the rubble and there's more creatures with her!

It appears she's saved some creatures who've been trapped underneath the collapsed building!

I Zoro De Facto Supreme Commander of the E.C.S. hereby declare war on all the nations of Alder in the name of Mankind

By the MAKER! That went off in the downtown shopping district

HELLO! HELLO!
HOW ARE WE DOING?
WHAT'S GOING ON?

Marco? Report!
Where are you?

Are you okay?
Is Pandora with you?

NO SHE'S NOT OUT THERE!
I'M NOT GOING TO HER!
I'M NOT! EXACTLY THE OPPOSITE!

Your comlink has a homing device in it. Activate it and we'll send someone after you.

Affirmative. We've also got a big problem. There are still humans on Alden and they're trying to create artificial hybrids. That's why they kidnapped the Professor and my friend here.

Even worse, I think there are more on their way.

Micro, can we go?

I'll find out what I can Micro out. Let's go.

His homing beacon is transmitting. He's in the ocean?

The Porpian Ocean. That's due East where those missiles came from.

Humans! Fuzz shoulda known those alien creeps would still be around after we destroyed that slave camp.

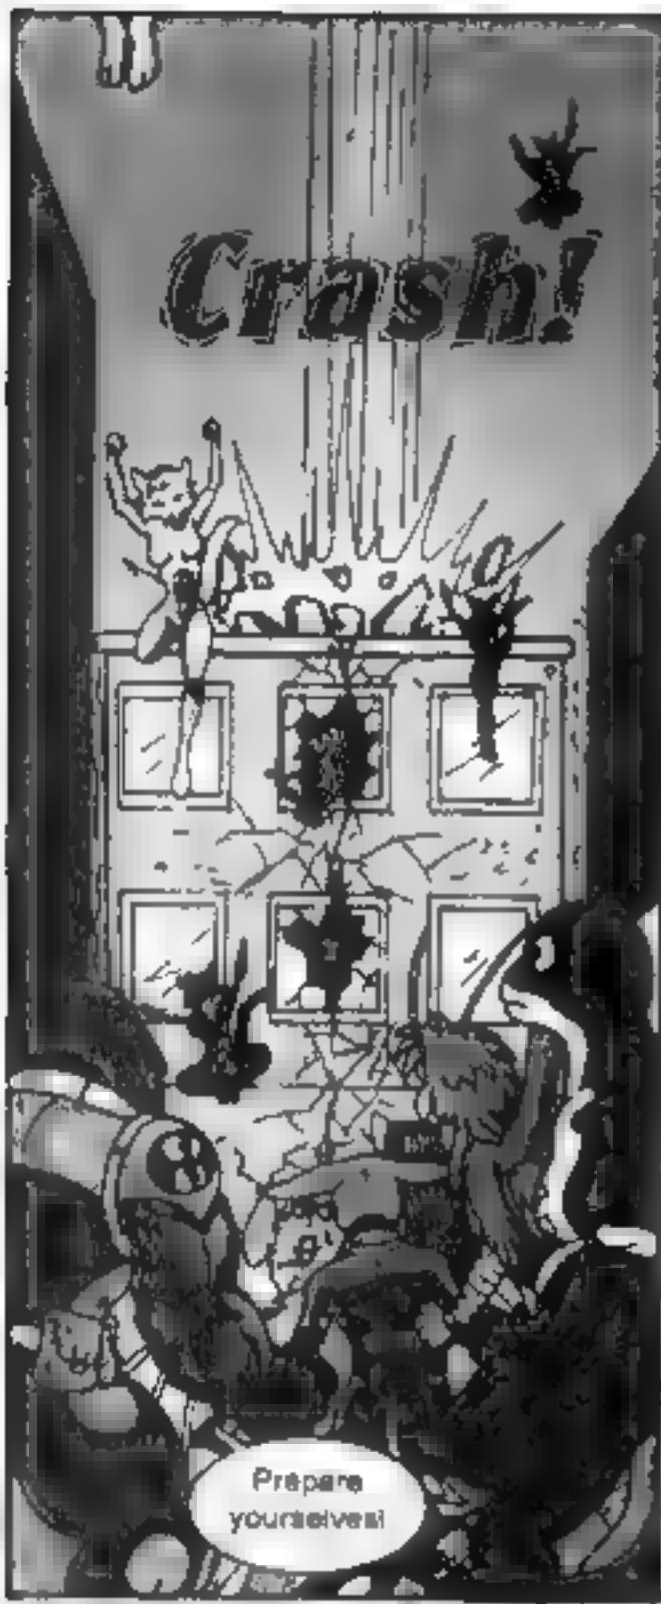

Hey, what's going on? I don't understand. What's the deal with that robot and what's a human?

Yeah, and I still don't believe it.

IT'S RAINING FELINS!

Crash!

Prepare yourselves!

Crash!

What? The ones from the pier and Sei Ryu Labs again? I thought you all were dead.

No matter! In a moment you'll wish you were!

Andoroxons! Activate and destroy them!

YES MISTRESS!

NO! Sachi wait!

GA...S! What's up! I'm glad to see you!

Threat identified! Targeting and neutralizing

DANG DAWG!?!?

AAHH!

Look out you big idiot!

I thought you said these were your friends?

What are we up against here?

Got K.I. them all let nothing stand in your way!

The Meph t is Sue Chan She s a big chemical expert and can manufacture and release any type of chemical she wants Electrical stuff seems to go crazy around her too

And the husky bitch is Merry She s the leader and is super strong with crazy luck

The Canin vixen is Tsuneko She s a weapons specialist with a deadly aim

Above, a watchful eye follows events

MISSISS ZORA, ULTRA COMMANDER

Mother will be proud. When I burn

this world to its knees she won't
have to worry anymore about her superiors
punishing her for failing her mission.

I will prove that I'm her most

Pandora!

How did you do that?
Your wounds! Healed!
How are you alive?
Where have you been?

Ken-san please! One
question at a time You know
all female Alluresens are trained
in the way of self defense when
we are cubs My use of the
sword shouldn't be a surprise

But your wounds!
You were barely
alive!

I m. I m a Hybrid
Ken-chan. I have the
power to heal myself
and others

CLANG!

That's why I was kidnapped
because I had a power I didn't
even know about It cost me my
family and almost my friends

Finally! We found
them!

We've been looking all over for you. We have to get out of here and fast! There are humans here and I bet Rokk and I are being looked for after K.O'ing one

Jacob! I'm so glad to see you! Humans? I haven't seen any but those cats are attacking the city!

Then we really gotta get out of here! Warfare's sending a pick-up.

Okay but we can't leave him. Can you get him free?

Him? But surely he's not strong enough to

It's not always about strength my big Canin friend. Sometimes size does matter

Alert! All personnel be on the look out for two Rodentians. They have attacked the Mistress! Orders are to kill them on the spot.

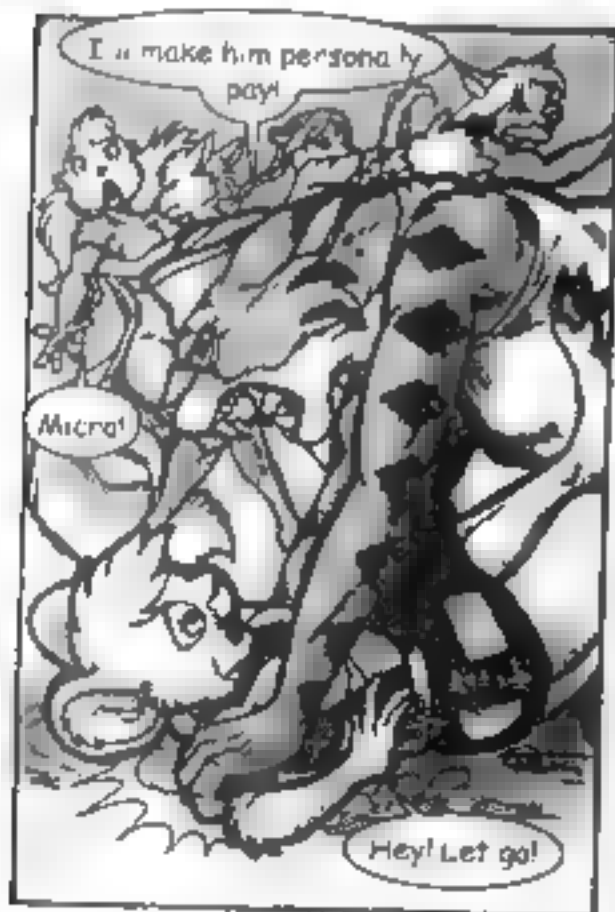

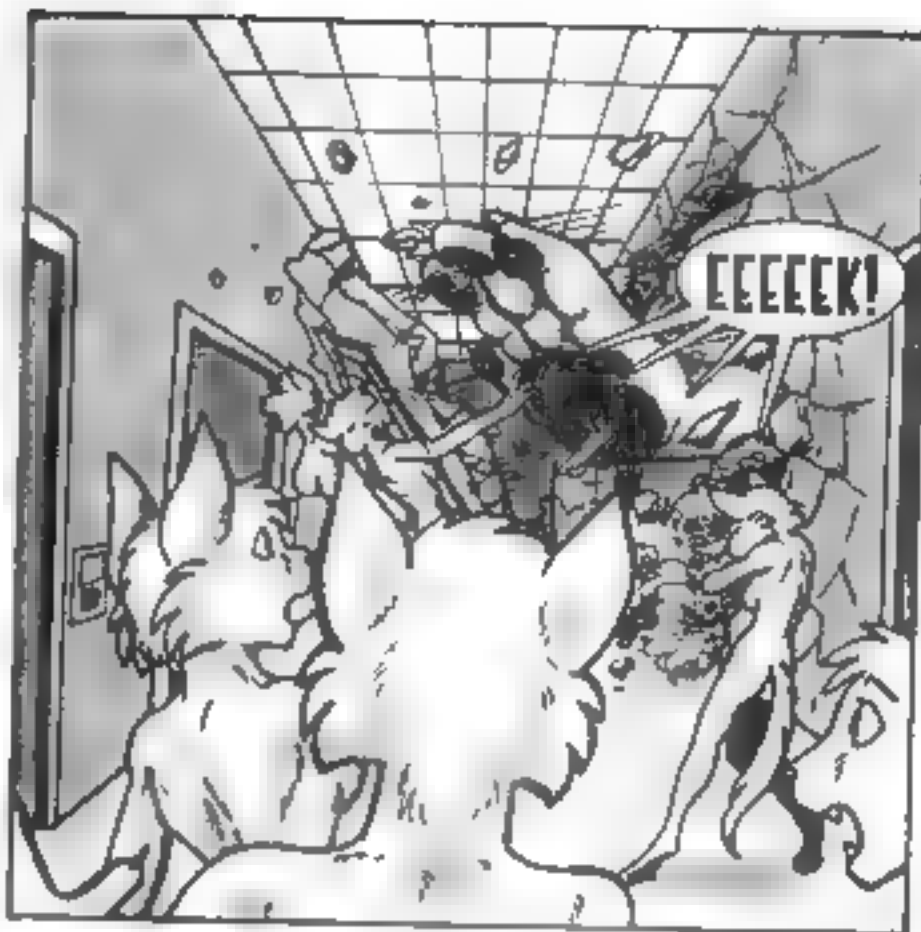

Amazing!

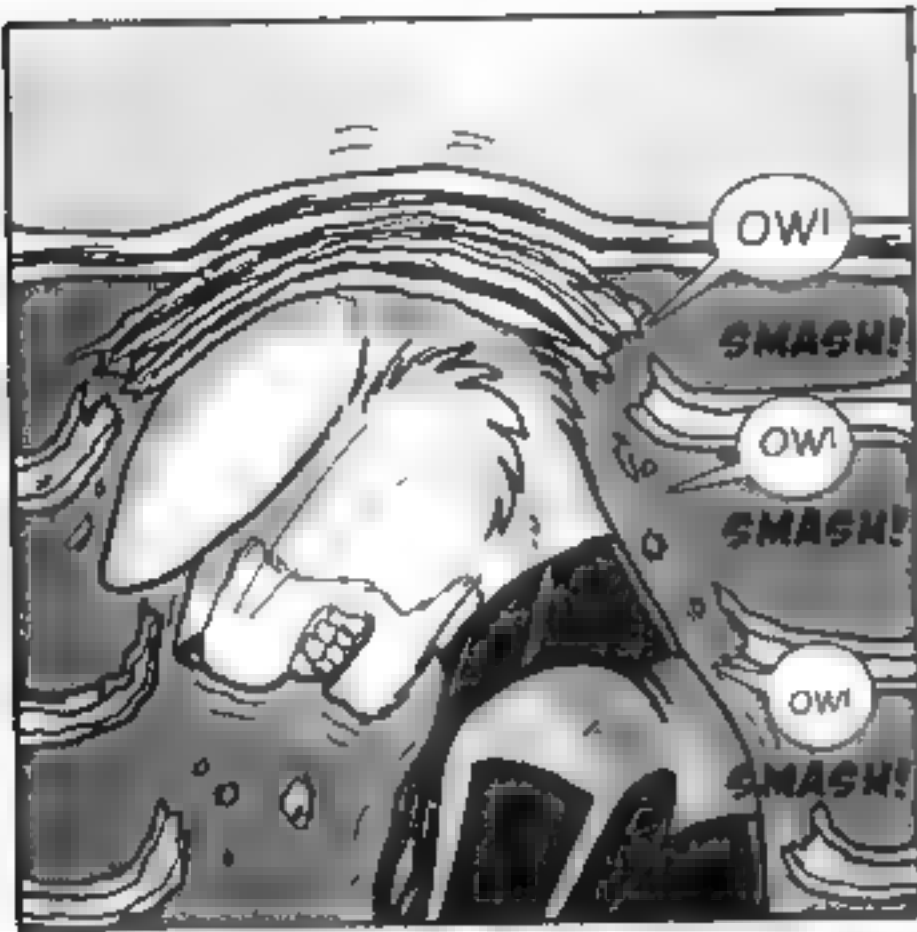

Oh that doesn't sound good

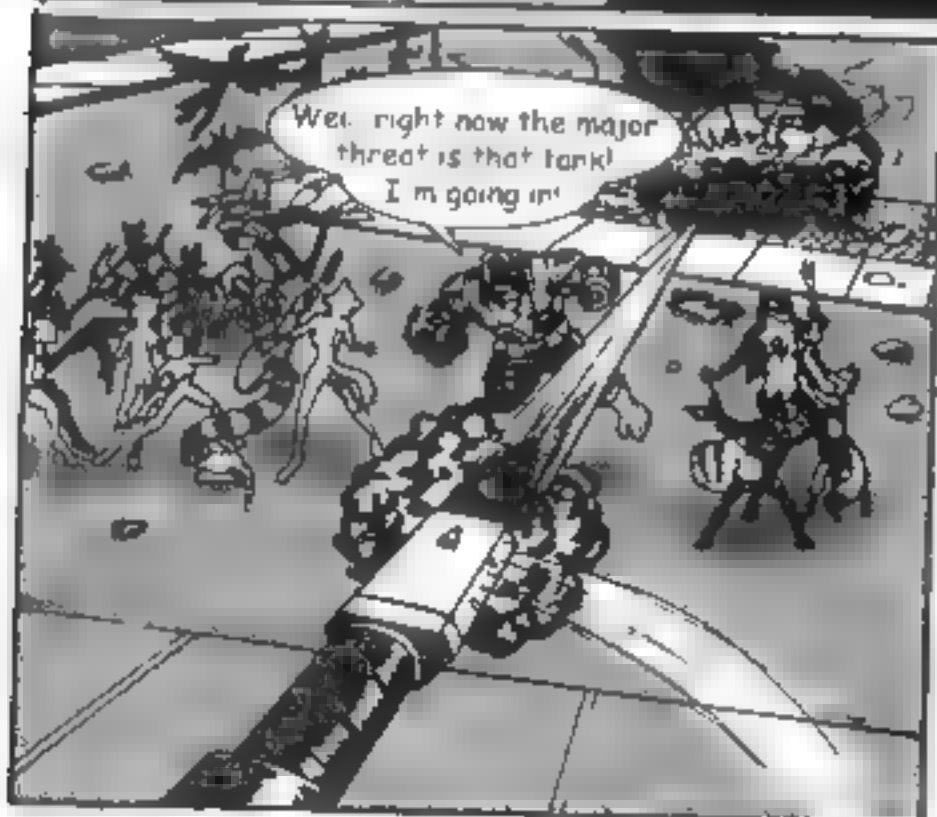

No! Not at all!

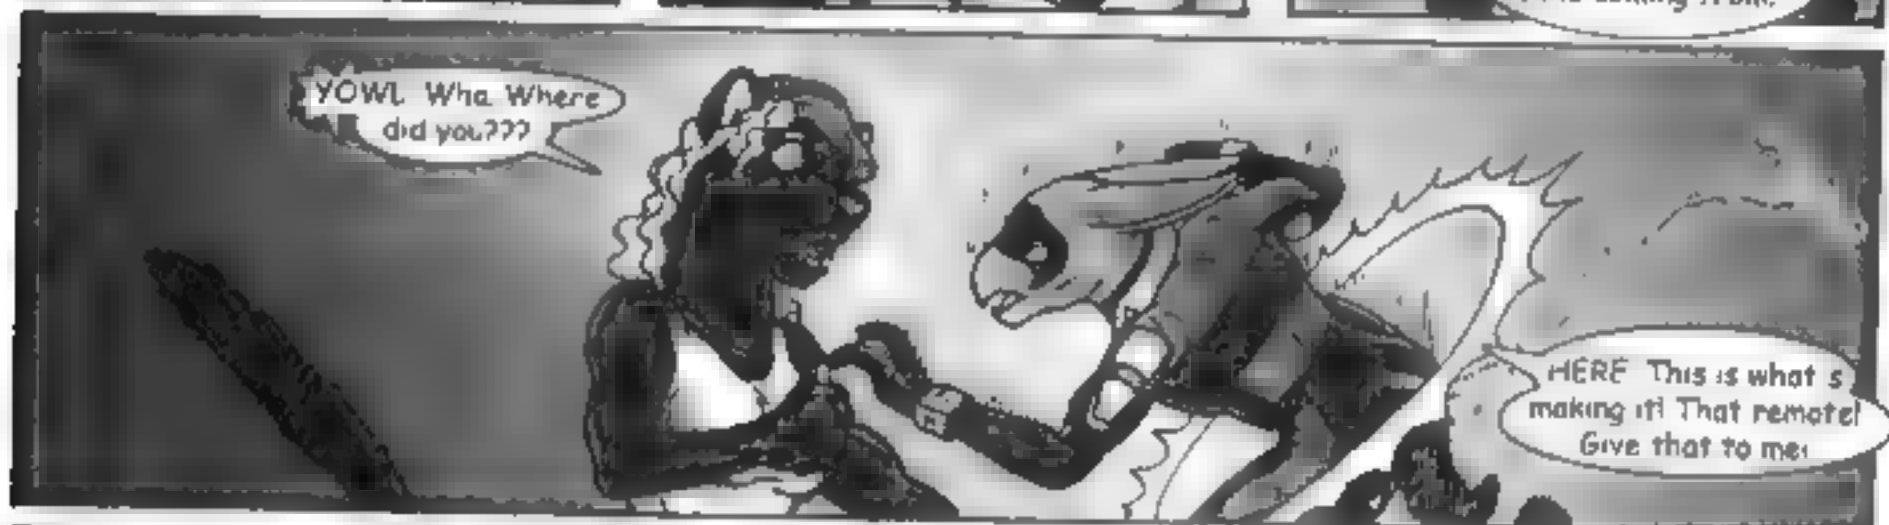

Come on! We don't have a lot of time to wait and I personally don't want to be on some Feline's dinner schedule

Sachi unleashes a high-frequency wave which varies in pitch and range in an attempt to disrupt the one that is controlling her friends. She has effective results.

Huh? Where am I?

Oh! Oh my gosh!

Did someone say + s dinner + me?

What the hell is happening? My soldiers are short circuiting! My control over them has. Uh oh

Hey cat! That was a real bad thing you made us do. You're so going to get a newspaper to the nose for that!

Yeah way to tell her Merry

Get ready for a smack down

You idiots think you've won? My troops may be stopped but this city will still be destroyed!

There are four bombs planted all over this city and when they go off

there is nothing but a giant pothole down there HA HA HA

Come back here so I can bep you one!

Pandora you fool! Victory was ours and you blundered it!

But Zora those strangers! They have powers!

But NOTHING! Bottom line is you failed. At least I can take comfort knowing the bombs will incinerate this city and we can move on to the next

Incoming transmission from Mistress Burden.

Zora, call off your attack and return to base immediately. My plans have changed. Burden OUT!

Who but Mother!

ROAR! Why? Why does she do this! All I want to do is please her yet every opportunity I get!

Zora!

What? GASP!

MOUSE

A giant rat!

HIYEE! Just wanted to say thanks for lett ng us know about those bombs

It took a couple of minutes to te eport to them a and disarm them but it s all good now

So thanks for playing Bye-bye now

FLICK!

AAAAAHHH!

She wore a wig?

Much later

Phoenix Found

After the defeat of the terrorist group calling itself the U.S., this group of humanoids helped clean, rebuild, and repair the damage caused during the battle.

Thanks goes to these Extinctioners for helping to keep Napa safe.

Also in related news Prof. Donnara was found.

Apparently Prof. Donnara was the victim of an attempt to steal his Andorizon technology. His partner and Sei Ryu Lab owner Takemitsu Sei Ryu, who has now gone missing himself, is wanted by authorities for questioning into the matter.

Sei Ryu Wanted

That was Incredible! What will happen now? Will they come back?

Well, I don't know. They seem to be low after an encounter so they probably won't try here again.

Yes but they have half of the Andorizon data. They could make artificial hybrids if they can figure out the rest.

I tried to put a worm that would attack the data when accessed, but I'm not sure if it work.

I've asked Micro to replace the other half of the data however.

I've found having full access to my emotions a bit overwhelming and embarrassing.

Really? Well okay if you want me to.

Heh I'm sure she'd love you to reinstall the data.

Phoenix do you think we could maybe stay a little while longer? I'd love to be able to catch up with my friends. I haven't seen Ken san and Satoru-san since we were cubs.

I don't mind at all. But well, Warfare?

Well, I find it compromising that you allow your staff to know your secrets Phoenix. However I do think an extended stay would be a good idea.

We need to do a little more investigation into this human matter before returning home. Them still being on planet could mean something big will happen soon.

Cool! I can show you guys the best place in town to get sushi.

Okay its settled then I'll give CeeCee and the sisters a call to let them know we'll be staying a little longer.

Meanwhile, back at the Feia house

And this is his room. We've
Hey! The door's locked.

Hey, Katherine. The
door up here to my
room is locked
somehow.

Don't worry, CeeCee.
I'll have it open in
a sec. It's probably
just jammed. Could
you answer that phone
for me?

Oh? Hmm, that's
odd cause
normally they can
only be locked
from the inside.

You know
that's not safe
for a sick patient

Well I don't
remember ever
locking that door

Okay Kat
Yes I know

Something like this should never
happen. What if the patient was
in serious need when something
like that happens?

When she opens that door
I'll have to make an
inspection of that room
for anymore hazards

Ms Ferrotti, I assure you
that this has never happened
before. I'm very careful and would
never do anything to endanger
my sick mate! EVER

Now if you'll excuse me
for a moment, I have to
take this call!

Heilo?

Hmm. I don't get it
You can't even accidentally
lock the door and then
close it without being in
the room

Mom and Dad made
sure of that after
that time Catrina
locked herself
in the closet
accidentally

Oh well. No big deal I'll just
become intangible, walk
through the door and unlock
it from the inside

These powers do
come in handy
sometimes
